DISTRIBUTION OF SMART VISION GLASSES BY ALMAWAKENING FOUNDATION, IN COLLABORATION WITH DR SHROFF'S CHARITY EYE HOSPITAL

On 21st May 2026, **Almawakening Foundation**, in collaboration with **Dr Shroff's Charity Eye Hospital**, organised an empowerment programme under its '**Enable Program**'.

26 visually impaired beneficiaries received **AI-enabled Smart Vision Glasses** designed to support reading, object recognition, navigation, mobility, and independent living. The programme was attended by **Dr Alma Chopra**, Founder of Almawakening Foundation, along with hospital officials and distinguished guests.

DISTRIBUTION OF SMART VISION GLASSES BY "ONGC"

A **significant milestone** in our mission to make assistive technology accessible to all.

With the support of **ONGC's CSR initiative**, **30 visually impaired beneficiaries** across **Northeast India's** Seven Sister States have been empowered with **AI-powered Smart Vision Glasses**, enabling greater independence in reading, navigation, object recognition, and everyday life. This initiative is more than the distribution of assistive devices, it is about creating opportunities, promoting inclusion, and ensuring that technology reaches those who need it most.

DISTRIBUTION OF SMART VISION GLASSES BY "NPCI"

We are delighted to share that **Blind Vision Foundation**, with the generous support of **NPCI (National Payments Corporation of India)**, has successfully distributed **100 AI powered Smart Vision Glasses** to visually impaired beneficiaries at **University of Hyderabad** (Hyderabad Central University).

This initiative is another step towards empowering persons with visual impairments through assistive technology, enabling greater independence, accessibility, and inclusion.

We sincerely thank NPCI for making a meaningful difference in the lives of the beneficiaries.

DISTRIBUTION OF SMART VISION GLASSES BY “VISION AID INDIA”

Vision-Aid India, in collaboration with **ADD India**, has distributed 30 Smart Vision Glasses to people with visual impairments, bringing AI-powered assistive technology closer to those who can benefit from greater independence.

Every device is more than technology it's an opportunity to navigate, learn, access information, and participate more independently.

Grateful to Vision Aid India & our partners for being part of this journey towards a more accessible and inclusive India.

“Smart Vision Glasses help me check the condition of vegetables and find where things are kept while I'm cooking.

It may seem small, but not having to depend on someone for these little things gives me a sense of independence and confidence.

And those little moments mean a lot to me.”

-Mrs. Bhumika Sudharshan
